

7/14/10.

Dear John,

I sincerely hope this letter finds you very well.

Hopefully by now you have been updated on the latest news about me. I have now stopped taking fluids and I can only assume they will force feed me again. Please feel free to keep your web-site update with this and reach out to anyone who you think may be able to help (human rights or criminal). Your members have been very supportive of me and I hope they will continue - perhaps they can network out also.

As always, thank you and best wishes for the future.

Best Wishes,
Bill.
