Judge David Klim
Onondaga County Family Court
401 Montgomery St.
Syracuse, NY 13202

Dear Judge Klim,

I was concerned after my appearance on Monday, April 10th. You recused yourself and it sounded like I had launched some type of personal attack against you at my web site, AKidsRight.Org, over a jail sentence you gave me in 2000.

I have reviewed the site location where this is mentioned:
http://www.AkidsRight.Org/support_jm.htm -- It does present a chronology and includes letters written to you. I did not see any demeaning, insulting or offensive remarks. While I, and other mothers and fathers in our Family Law reform group, did not agree with your decision and felt it was not just; I have always tried to keep a respectful tone and encourage members of the group to do the same.

Could you please clarify the specific items you found offensive? I may have overlooked something and I will certainly give an apology and make site changes for any unwarranted comments. I am confident that nothing has been changed on the page to affect the entries made prior to April 10th which you might have read. I can also assure you the material is on numerous archival tapes, and analysis would show no alterations have been made.

I have no problem with you being the Judge in this matter. I had hoped to show you I love and support my son, Domenic, and any violation of the support order was not willful. A keystone of my conduct and the group AKidsRight.Org is to treat everyone with the dignity, respect, and compassion, even if opposing views are held. Your remarks cast this in a negative light and could affect another Judge. I wish to make the record clear.

If procedure allows, I also hope you will reconsider your actions and hear this matter.

Sincerely yours,

John Murtari
